

# Syllabus

Title	University Physics II
Number	PHYS 2326-102
Time	TR 12:30–1:45
Place	PH 116
Instructor	David Milovich
Email	david.milovich@tamui.edu
Phone	(956) 326-2570
Office	BVC 321
Hours	MTR 3:00-5:00
Department	Engineering, Mathematics, and Physics
College	Arts and Sciences
Institution	Texas A&M International University
Term	Fall 2012

**Course description.** Continuation of PHYS 2325. A calculus-based treatment of the fundamentals of electricity and magnetism, sound, light and modern physics. Topics include electrostatics, magnetostatics and magnetic materials, electromagnetic waves, geometric optics, physical optics, quantum mechanics, nuclear physics and relativity theory. Must be taken concurrently with PHYS 2126. Prerequisites: MATH 2414 or equivalent (or concurrent enrollment therein) and PHYS 2325/PHYS 2125.

**Student learning outcomes.** Upon successful completion of this course, the student will be able to:

- describe qualitatively and quantitatively the concept of the electric field;
- state Gauss’s law and apply it to solve physics problems;
- describe qualitatively and quantitatively the concept of the electric potential;
- state Kirchhoff’s rules for DC circuits and apply them to solve physics problems;
- state Faraday’s law of electromagnetic induction and apply it to solve physics problems; and
- describe qualitatively and quantitatively the concept of electromagnetic waves.

**Textbook.** Required: *Physics for Scientists & Engineers with Modern Physics*. 4th Edition (2008). Douglas C. Giancoli. Prentice Hall. ISBN-10: 0-13-149508-9, ISBN-13: 978-0-13-149508-1.

**Calculators.** Calculators are strongly recommended for both homework assignments and for exams.

**Exams.** There will be two exams and then a final exam. The final exam will be comprehensive.

- Test I, in class, September 27.
- Test II, in class, November 1.
- Final Exam, BH 201, 2PM, December 6.

**Grading.** Components: Quizzes 15%, Homework 15%; Test I 20%; Test II 20%; Final Exam 30%. Final letter grade, given a total score of  $x\%$ : A:  $x \geq 90$ ; B:  $80 \leq x < 90$ ; C:  $70 \leq x < 80$ ; D:  $60 \leq x < 70$ ; F:  $x < 60$ .

**Quizzes.** Every day marked by a “Q” on the schedule (see below), there will be a quiz on the corresponding chapter of the book. The quiz is very short and just intended to check that you read the chapter. There are 17 quizzes in the (approximate) schedule; I will drop the lowest 2 scores.

The topics of this course are too broad for me to lecture on every detail. I expect you to read the chapters listed in the Approximate Schedule of Topics (see below) *before* we discuss those topics in the classroom.

That said, in the table of contents of *Giancoli*, you will notice that most chapters have a few sections marked with a \*. Unless I specifically ask the class to read such a section, consider it optional (but interesting!) reading.

**Homework.** Homework is 15% of your grade. With each test, you must turn in a bound journal. (A three-ring binder is probably the easiest way to bind your work.) This journal should include complete solutions to textbook exercises of your choice. You may choose odd-numbered problems, but remember that the final answer is usually not a complete solution by itself. You may work in groups on your homework problems, but **everything in your journal must be hand-written by you.**

I will grade for completeness not correctness, giving full credit for **75 complete solutions per test** and partial credit for fewer than 75 per test. However, you may use your journal (but not your textbook) during tests, so you probably want to make sure you have correctness too. Also, you probably want to choose exercises from the chapters covered on the test. Besides solutions, you may also include whatever notes you desire in your journal, but remember that everything in your journal must be hand-written by you.

For Test I and Test II, I will return your journal in class. After the journals turned in with the final exam are graded for completeness, your journal will be at my office for you to pick up, at least until Feb. 1. (Unwanted journals will eventually be recycled.)

**Make-ups.** There are no make-ups for missed work, except by situations covered by university rules. (See the Student Handbook.)

### Approximate Schedule of Topics

Date	Chapter	Quiz?
23-Aug	21	
28-Aug	21	Q
30-Aug	22	Q
4-Sep	23	Q
6-Sep	23	
11-Sep	24	Q
13-Sep	25	Q
18-Sep	25	
20-Sep	26	Q
25-Sep	review	
27-Sep	Test I	
2-Oct	27	Q
4-Oct	28	Q
9-Oct	29	Q
11-Oct	30	Q
16-Oct	30	
23-Oct	31	Q
25-Oct	31	
30-Oct	review	
1-Nov	Test II	
6-Nov	32	Q
8-Nov	34	Q
13-Nov	36	Q
15-Nov	36	
20-Nov	38	Q
27-Nov	39	Q
29-Nov	41	Q
4-Dec	review	

# **Policies of the College of Arts and Sciences**

(Required on all COAS Syllabi)

## **Classroom Behavior**

The College of Arts and Sciences encourages classroom discussion and academic debate as an essential intellectual activity. It is essential that students learn to express and defend their beliefs, but it is also essential that they learn to listen and respond respectfully to others whose beliefs they may not share. The College will always tolerate diverse, unorthodox, and unpopular points of view, but it will not tolerate condescending or insulting remarks. When students verbally abuse or ridicule and intimidate others whose views they do not agree with, they subvert the free exchange of ideas that should characterize a university classroom. If their actions are deemed by the professor to be disruptive, they will be subject to appropriate disciplinary action, which may include being involuntarily withdrawn from the class.

## **Plagiarism and Cheating**

Plagiarism is the presentation of someone else's work as your own. **1)** When you borrow someone else's facts, ideas, or opinions and put them entirely in your own words, you must acknowledge that these thoughts are not your own by immediately citing the source in your paper. Failure to do this is plagiarism. **2)** When you also borrow someone else's words (short phrases, clauses, or sentences), you must enclose the copied words in quotation marks as well as citing the source. Failure to do this is plagiarism. **3)** When you present someone else's paper or exam (stolen, borrowed, or bought) as your own, you have committed a clearly intentional form of intellectual theft and have put your academic future in jeopardy. This is the worst form of plagiarism.

Here is another explanation from the 2010, sixth edition of the *Manual of The American Psychological Association* (APA):

*Plagiarism:* Researchers do not claim the words and ideas of another as their own; they give credit where credit is due. Quotations marks should be used to indicate the exact words of another. *Each* time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you need to credit the source in the text.

The key element of this principle is that authors do not present the work of another as if it were their own words. This can extend to ideas as well as written words. If authors model a study after one done by someone else, the originating author should be given credit. If the rationale for a study was suggested in the Discussion section of someone else's article, the person should be given credit. Given the free exchange of ideas, which is very important for the health of intellectual discourse, authors may not know where an idea for a study originated. If authors do know, however, they should acknowledge the source; this includes personal communications. (pp. 15-16)

Consult the Writing Center or a recommended guide to documentation and research such as the *Manual of the APA* or the *MLA Handbook for Writers of Research Papers* for guidance on proper documentation. If you still have doubts concerning proper documentation, seek advice from your instructor prior to submitting a final draft.

**Use of Work in Two or More Courses:** You may not submit work completed in one course for a grade in a second course unless you receive explicit permission to do so by the instructor of the second course.

**Penalties for Plagiarism:** Should a faculty member discover that a student has committed plagiarism, the student should receive a grade of 'F' in that course and the matter will be referred to the Honor Council for possible disciplinary action. The faculty member, however, may elect to give freshmen and sophomore students a "zero" for the assignment and to allow them to revise the assignment up to a grade of "F" (50%) if they believe that the student plagiarized out of ignorance or carelessness and not out of an attempt to deceive in order to earn an unmerited grade. This option should not be available to juniors, seniors, or graduate students, who cannot reasonably claim ignorance of documentation rules as an excuse.

**Caution:** Be very careful what you upload to Turnitin or send to your professor for evaluation. Whatever you upload for evaluation will be considered your final, approved draft. If it is plagiarized, you will be held responsible. The excuse that "it was only a draft" will not be accepted.

**Caution:** Also, do not share your electronic files with others. If you do, you are responsible for the possible consequences. If another student takes your file of a paper and changes the name to his or her name and submits it and you also submit the paper, we will hold both of you responsible for plagiarism. It is impossible for us to know with certainty who wrote the paper and who stole it. And, of course, we cannot know if there was collusion between you and the other student in the matter.

**Penalties for Cheating:** Should a faculty member discover a student cheating on an exam or quiz or other class project, the student should receive a "zero" for the assignment and not be allowed to make the assignment up. The incident should be reported to the chair of the department and to the Honor Council. If the cheating is extensive, however, or if the assignment constitutes a major grade for the course (e.g., a final exam), or if the student has cheated in the past, the student should receive an "F" in the course, and the matter should be referred to the Honor Council. Under no circumstances should a student who deserves an "F" in the course be allowed to withdraw from the course with a "W."

**Student Right of Appeal:** Faculty will notify students immediately via the student's TAMIU e-mail account that they have submitted plagiarized work. Students have the right to appeal a faculty member's charge of academic

dishonesty by notifying the TAMIU Honor Council of their intent to appeal as long as the notification of appeal comes within 5 business days of the faculty member's e-mail message to the student. The *Student Handbook* provides details

### **UConnect, TAMIU E-Mail, and Dusty Alert**

Personal Announcements sent to students through TAMIU's UConnect Portal and TAMIU E-mail are the official means of communicating course and university business with students and faculty – not the U.S. Mail and not other e-mail addresses. Students and faculty must check UConnect and their TAMIU e-mail accounts regularly, if not daily. Not having seen an important TAMIU e-mail or UConnect message from a faculty member, chair, or dean is not accepted as an excuse for failure to take important action. Students, faculty, and staff are encouraged to sign-up for *Dusty Alert* (see [www.tamtu.edu](http://www.tamtu.edu)). *Dusty Alert* is an instant cell phone text-messaging system allowing the university to communicate immediately with you if there is an on-campus emergency, something of immediate danger to you, or a campus closing.

### **Copyright Restrictions**

The Copyright Act of 1976 grants to copyright owners the exclusive right to reproduce their works and distribute copies of their work. Works that receive copyright protection include published works such as a textbook. Copying a textbook without permission from the owner of the copyright may constitute copyright infringement. Civil and criminal penalties may be assessed for copyright infringement. Civil penalties include damages up to \$100,000; criminal penalties include a fine up to \$250,000 and imprisonment.

### **Students with Disabilities**

Texas A&M International University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal education opportunity. It is the student's responsibility to register with the Director of Student Counseling and to contact the faculty member in a timely fashion to arrange for suitable accommodations.

### **Incompletes**

Students who are unable to complete a course should withdraw from the course before the final date for withdrawal and receive a "W." To qualify for an "incomplete" and thus have the opportunity to complete the course at a later date, a student must meet the following criteria:

1. The student must have completed 90% of the course work assigned before the final date for withdrawing from a course with a "W", and the student must be passing the course;
2. The student cannot complete the course because an accident, an illness, or a traumatic personal or family event occurred after the final date for withdrawal from a course;
3. The student must sign an "Incomplete Grade Contract" and secure signatures of approval from the professor and the college dean.
4. The student must agree to complete the missing course work before the end of the next long semester; failure to meet this deadline will cause the "I" to automatically be converted to a "F"; extensions to this deadline may be granted by the dean of the college.

This is the general policy regarding the circumstances under which an "incomplete" may be granted, but under exceptional circumstances, a student may receive an incomplete who does not meet all of the criteria above if the faculty member, department chair, and dean recommend it.

### **Student Responsibility for Dropping a Course**

It is the responsibility of the STUDENT to drop the course before the final date for withdrawal from a course. Faculty members, in fact, may not drop a student from a course without getting the approval of their department chair and dean.

### **Independent Study Course**

Independent Study (IS) courses are offered only under exceptional circumstances. Required courses intended to build academic skills may not be taken as IS (e.g., clinical supervision and internships). No student will take more than one IS course per semester. Moreover, IS courses are limited to seniors and graduate students. Summer IS course must continue through both summer sessions.

### **Grade Changes & Appeals**

Faculty are authorized to change final grades only when they have committed a computational error or an error in recording a grade, and they must receive the approval of their department chairs and the dean to change the grade. As part of that approval, they must attach a detailed explanation of the reason for the mistake. Only in rare cases would another reason be entertained as legitimate for a grade change. A student who is unhappy with his or her grade on an assignment must discuss the situation with the faculty member teaching the course. If students believe that they have been graded unfairly, they have the right to appeal the grade using a grade appeal process in the *Student Handbook* and the *Faculty Handbook*.

### **Final Examination**

Final Examination must be comprehensive and must contain a written component. The written component should comprise at least 20% of the final exam grade. Exceptions to this policy must receive the approval of the department chair and the dean at the beginning of the semester.
