Syllabus

Title	Advanced Calculus		
Number	MATH 4335-101		
Time	MW 3:30–4:45		
Instructor	David Milovich		
Email	david.milovich@tamiu.edu		
Phone	(956) 326-2570		
Office	LBV 321		
Mailbox	LBV 312		
Hours	TR 2:00-5:00		
Department	Mathematics and Physics		
College	Arts and Sciences		
Institution	Texas A&M International University		
Term	Fall 2016		

Course description. A course in real analysis. It will include topology, continuity, differentiation, integration, sequences, series and power series. Prerequisite: MATH 2414 and MATH 3365.

Student learning outcomes. Upon successful completion of this course, the student will be able to:

- use estimation techniques such as geometric series and the Squeeze Theorem to prove that a sequence is convergent;
- use subsequences to prove discontinuity of a function and divergence of a sequence;
- use the techniques of bisection or sequential compactness to prove theorems related to continuity and closed intervals, such as the Extreme Value Theorem or Intermediate Value Theorem;
- prove continuity and differentiability of polynomials;
- use theorems such us Rolle's Theorem, the Mean Value Theorem, the Intermediate Value Theorem, and the Inverse Function Theorem to solve problems such as proving that a function does or does not have a root in a given interval;
- prove error bounds for Taylor polynomial approximations;
- use a precise definition of the Riemann Integral to determine if a bounded function defined in a closed and bounded interval is integrable;
- state precise versions of the first and second Fundamental Theorems of Calculus.

Recommended Textbook. Arthur Mattuck. Introduction to Analysis. 978-1484814116.

Grading. Letter grades (which may include +/- modifiers) will be given for invidiual assignments and tests. These grades will be converted to GPA scores and then averaged according to the following weights: average homework score: 40%; midterm exam: 25%; final exam: 35%.

Homework.

- I prefer work submitted on paper, single-sided, and double-spaced. Typed or and hand-written are both fine.
- Due dates will be announced in class. On the due date, I will collect homework at the beginning of class. Late homework is penalized one letter grade per day.

- I will grade homeworks for correctness. After I grade and return your assignment to you, you have the option to a submit one revision, due three class days (which is usually a week and a half) after I return your first version, or due on the last class day, whichever comes first. If you submit a revision, its grade will be averaged with your grade for the first version.
- You may work alone or in groups of four or smaller. You do not need to work in the same group for the
 whole semester. However, a homework revision must be authored by the same people that authored
 the first version.
- You must include acknowledgement of any people outside your group that helped you solve a problem. Likewise, you must acknowledge any books or online resources that helped you solve a problem, excepting what was covered in class and in the recommended textbook. (I don't care about citation formats; I do care about intellectual honesty.)
- If you read something in a book or on the web that uses advanced terminology and facts that have not been covered in our course, then I recommend you not use them in your own work. If you insist on using them, then you must include definitions of the advanced terms and proofs of the advanced facts, so as to demonstrate that you understand what you're writing.
- When grading, I will be kinder to clearly written but incomplete solution attempts than I will be to "complete" solutions cluttered with nonsense or with irrelevant information.

Tests. Unlimited notes and textbooks are allowed for tests. Calculators are allowed, but phones/tablets/laptops are not.

Make-ups. See the Student Handbook and the attached Policies of the College of Arts and Sciences for rules about making up missed work. I do not promise any make-ups beyond those promised there. Generally speaking, you should have a good excuse for missed work.

Day	Date	Chapter	Topics
1	Aug 24	1	the real line; monotone sequences
2	Aug 29	2	estimates and inequalities
3	Aug 31	2	estimates and inequalities
4	Sep 05	3	limits of sequences
5	Sep 07	3	limits of sequences
6	Sep 12	4	Error term analysis
7	Sep 14	5	limit theorems and subsequences
8	Sep 19	5	limit theorems and subsequences
9	Sep 21	6	completeness properties
10	Sep 26	6	completeness properties
11	Sep 28	7	infinite series
12	Oct 03	7	infinite series
13	Oct 05	8	power series
14	Oct 10	15	midterm exam
15	Oct 12	9	functions: basic operations and properties
16	Oct 17	10	functions: local and global properties
17	Oct 19	11	continuity
18	Oct 24	12	Intermediate Value Theorem
19	Oct 26	12	Inverse Function Theorem
20	Oct 31	13	Extreme Value Theorem
21	Nov 02	13	uniform continuity
22	Nov 07	14	differentiation: local properties
23	Nov 09	15	Mean Value Theorem and extensions
24	Nov 14	17	Taylor's theorem
25	Nov 16	18	Riemann integrability
26	Nov 21	19	Riemann integral
27	Nov 28	19	Riemann integral
28	Dec 03	20	Derivatives and Integrals
29	Dec 05	20	Derivatives and Integrals

Dec 12 comprehensive **final exam, 3:30--6:30**

Policies of the College of Arts and Sciences

(Required on all COAS Syllabi / Last Revised: July 13, 2016)

Classroom Behavior

The College of Arts and Sciences encourages classroom discussion and academic debate as an essential intellectual activity. It is essential that students learn to express and defend their beliefs, but it is also essential that they learn to listen and respond respectfully to others whose beliefs they may not share. The College will always tolerate diverse, unorthodox, and unpopular points of view, but it will not tolerate condescending or insulting remarks. When students verbally abuse or ridicule and intimidate others whose views they do not agree with, they subvert the free exchange of ideas that should characterize a university classroom. If their actions are deemed by the professor to be disruptive, they will be subject to appropriate disciplinary action, which may include being involuntarily withdrawn from the class.

Plagiarism and Cheating

Plagiarism is the presentation of someone else's work as your own. It occurs when you:

- 1) **Borrow** someone else's facts, ideas, or opinions and put them entirely in your own words, you <u>must</u> acknowledge that these thoughts are not your own by immediately citing the source in your paper. <u>Failure to do this is plagiarism</u>.
- 2) **Borrow** someone else's words (short phrases, clauses, or sentences), you <u>must</u> enclose the copied words in quotation marks <u>as well as citing the source</u>. <u>Failure to do this is plagiarism</u>.
- 3) Present someone else's paper or exam (stolen, borrowed, or bought) as your own, you have committed a clearly intentional form of intellectual theft and have put your academic future in jeopardy. This is the worst form of plagiarism.

Here is another explanation from the 2010, sixth edition of the *Manual of The American Psychological Association* (APA):

Plagiarism: Researchers do not claim the words and ideas of another as their own; they give credit where credit is due. Quotations marks should be used to indicate the exact words of another. *Each* time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you need to credit the source in the text.

The key element of this principle is that authors do not present the work of another as if it were their own words. This can extend to ideas as well as written words. If authors model a study after one done by someone else, the originating author should be given credit. If the rationale for a study was suggested in the Discussion section of someone else's article, the person should be given credit. Given the free exchange of ideas, which is very important for the health of intellectual discourse, authors may not know where an idea for a study originated. If authors do know, however, they should acknowledge the source; this includes personal communications. (pp. 15-16)

Consult the Writing Center or a recommended guide to documentation and research such as the *Manual of the APA* or the *MLA Handbook for Writers of Research Papers* for guidance on proper documentation. If you still have doubts concerning proper documentation, seek advice from your instructor prior to submitting a final draft.

<u>Penalties for Plagiarism</u>: Should a faculty member discover that a student has committed plagiarism, the student should receive a grade of 'F' in that course and the matter will be referred to the Honor Council for possible disciplinary action. The faculty member, however, may elect to give freshmen and sophomore students a "zero" for the assignment and to allow them to revise the assignment up to a grade of "F" (50%) if they believe that the student plagiarized out of ignorance or carelessness and not out of an attempt to deceive in order to earn an unmerited grade. This option should not be available to juniors, seniors, or graduate students, who cannot reasonably claim ignorance of documentation rules as an excuse.

- <u>Caution</u>: Be very careful what you upload to Turnitin or send to your professor for evaluation. Whatever you upload for evaluation will be considered your final, approved draft. If it is plagiarized, you will be held responsible. The excuse that "it was only a draft" will not be accepted.
- <u>Caution:</u> Also, do not share your electronic files with others. If you do, you are responsible for the possible consequences. If another student takes your file of a paper and changes the name to his or her name and submits it and you also submit the paper, we will hold both of you responsible for plagiarism. It

is impossible for us to know with certainty who wrote the paper and who stole it. And, of course, we cannot know if there was collusion between you and the other student in the matter.

<u>Penalties for Cheating:</u> Should a faculty member discover a student cheating on an exam or quiz or other class project, the student should receive a "zero" for the assignment and not be allowed to make the assignment up. The incident should be reported to the chair of the department and to the Honor Council. If the cheating is extensive, however, or if the assignment constitutes a major grade for the course (e.g., a final exam), or if the student has cheated in the past, the student should receive an "F" in the course, and the matter should be referred to the Honor Council. Under no circumstances should a student who deserves an "F" in the course be allowed to withdraw from the course with a "W."

<u>Student Right of Appeal</u>: Faculty will notify students immediately via the student's TAMIU e-mail account that they have submitted plagiarized work. Students have the right to appeal a faculty member's charge of academic dishonesty by notifying the TAMIU Honor Council of their intent to appeal as long as the notification of appeal comes within 10 business days of the faculty member's e-mail message to the student. The *Student Handbook* provides more details.

Use of Work in Two or More Courses

You may <u>not</u> submit work completed in one course for a grade in a second course <u>unless</u> you receive explicit permission to do so by the instructor of the second course.

UConnect, TAMIU E-Mail, and Dusty Alert

Personal Announcements sent to students through TAMIU's UConnect Portal and TAMIU E-mail are the official means of communicating course and university business with students and faculty — not the U.S. Mail and no other e-mail addresses. Students and faculty must check UConnect and their TAMIU e-mail accounts regularly, if not daily. Not having seen an important TAMIU e-mail or UConnect message from a faculty member, chair, or dean is not accepted as an excuse for failure to take important action. Students, faculty, and staff are encouraged to sign-up for *Dusty Alert* (see www.tamiu.edu). *Dusty Alert* is an instant cell phone text-messaging system allowing the university to communicate immediately with you if there is an on-campus emergency, something of immediate danger to you, or a campus closing.

Copyright Restrictions

The Copyright Act of 1976 grants to copyright owners the exclusive right to reproduce their works and distribute copies of their work. Works that receive copyright protection include published works such as a textbook. Copying a textbook without permission from the owner of the copyright may constitute copyright infringement. Civil and criminal penalties may be assessed for copyright infringement. Civil penalties include damages up to \$100,000; criminal penalties include a fine up to \$250,000 and imprisonment.

Copyright laws do not allow students and professors to make photocopies of copyrighted materials, but you may copy a limited portion of a work, such an article from a journal or a chapter from a book for your own personal academic use or, in the case of a professor, for personal, limited classroom use. In general, the extent of your copying should not suggest that the purpose or the effect of your copying is to avoid paying for the materials. And, of course, you may not sell these copies for a profit. Thus, students who copy textbooks to avoid buying them or professors who provide photocopies of textbooks to enable students to save money are violating the law.

Students with Disabilities

Texas A&M International University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal education opportunity. It is the student's responsibility to register with the Director of Student Counseling and to contact the faculty member in a timely fashion to arrange for suitable accommodations.

Student Attendance and Leave of Absence (LOA) Policy:

As part of our efforts to assist and encourage all students towards graduation, TAMIU provides LOA's for students, including pregnant/parenting students, in accordance with the Attendance Rule (Section 3.24) and the Student LOA Rule (Section 3.25), which includes the "Leave of Absence Request" form. Both rules can be found in the TAMIU Student Handbook (URL: http://www.tamiu.edu/studentaffairs/StudentHandbook1.shtml).

Under Title IX of the Education Amendments of 1972, harassment based on sex, including harassment because of pregnancy or related conditions, is prohibited. A **pregnant/parenting student** must be granted a leave of absence (LOA) for as long as the student's physician deems the absence medically necessary. As a TAMIU faculty

member, we must:

- 1) Allow a pregnant/parenting student to submit work after a deadline that was missed because of a LOA due to pregnancy or childbirth,
- 2) If grading is based in part on class attendance or participation, allow a pregnant/parenting student to earn the credits missed so that the student can be reinstated to the status held before the LOA, and
- 3) At the conclusion of the LOA, allow the pregnant/parenting student to return to the same academic and extracurricular status held when the LOA began.

If we receive a request from a student for a LOA, including pregnant/parenting students, we will promptly report it to and seek guidance from the Office of Student Affairs at ext. 2282.

Incompletes

Students who are unable to complete a course should withdraw from the course before the final date for withdrawal and receive a "W." To qualify for an "incomplete" and thus have the opportunity to complete the course at a later date, a student must meet the following criteria:

- 1) The student must have completed 90% of the course work assigned <u>before</u> the final date for withdrawing from a course with a "W", and the student must be passing the course;
- 2) The student cannot complete the course because an accident, an illness, or a traumatic personal or family event occurred <u>after</u> the final date for withdrawal from a course;
- 3) The student must sign an "Incomplete Grade Contract" and secure signatures of approval from the professor and the college dean.
- 4) The student must agree to complete the missing course work before the end of the next long semester; failure to meet this deadline will cause the "I" to automatically be converted to an "F"; extensions to this deadline may be granted by the dean of the college.

This is the general policy regarding the circumstances under which an "incomplete" may be granted, but under exceptional circumstances, a student may receive an incomplete who does not meet all of the criteria above if the faculty member, department chair, and dean recommend it.

WIN Contracts

WIN Contracts are offered only under exceptional circumstances and are limited to seniors. Only courses offered by full-time TAMIU faculty or TAMIU instructors are eligible to be contracted for the WIN requirement. However, a WIN contract for a course taught by an adjunct may be approved, with special permission from the department chair and dean. Students must seek approval before beginning any work for the WIN Contract. No student will contract more than one course per semester. Summer WIN Contracts must continue through both summer sessions.

Student Responsibility for Dropping a Course

It is the responsibility of the STUDENT to drop the course before the final date for withdrawal from a course. Faculty members, in fact, may not drop a student from a course without getting the approval of their department chair and dean.

Independent Study Course

Independent Study (IS) courses are offered only under exceptional circumstances. Required courses intended to build academic skills may not be taken as IS (e.g., clinical supervision and internships). No student will take more than one IS course per semester. Moreover, IS courses are limited to seniors and graduate students. Summer IS course must continue through both summer sessions.

Grade Changes & Appeals

Faculty are authorized to change final grades only when they have committed a computational error or an error in recording a grade, and they must receive the approval of their department chairs and the dean to change the grade. As part of that approval, they must attach a detailed explanation of the reason for the mistake. Only in rare cases would another reason be entertained as legitimate for a grade change. A student who is unhappy with his or her grade on an assignment must discuss the situation with the faculty member teaching the course. If students believe that they have been graded unfairly, they have the right to appeal the grade using a grade appeal process in the *Student Handbook* and the *Faculty Handbook*.

Final Examination

Final Examination must be comprehensive and must contain a written component. The written component should comprise at least 20% of the final exam grade. Exceptions to this policy must receive the approval of the department chair and the dean at the beginning of the semester.
